Photoshop Elements. Adobe Photoshop Elements is a part of the Adobe Creative Suite. It gives you the power and flexibility of Photoshop on a budget, with fewer features. The editor doesn't have as many effects, layers, or layers and masks. It does not have the professional tools. However, it does give you essential editing functions and a very user-friendly interface. Adobe Photoshop Elements is often compared to Apple's iPhoto, and it does have some similarities. It has a similar interface and the ability to store images in the cloud and share photos via social media. Elements is also a $99 standalone software package, while iPhoto is a free iPhone app. However, Elements is not quite as powerful as the professional version of Photoshop. (Published Tuesday, Oct. 31, 2013) Texas authorities have confirmed a man who is in the country illegally has been charged with raping a young Texas mother who was allegedly abducted earlier this year. According to court documents, authorities say 26-year-old Giovanna Cadena was identified as the victim by the Dallas Independent School District. NBC 5's Michael Wade reports. (Published Tuesday, Oct. 31, 2013) Giovanna says police stopped her July 3, 2013 after she was riding a bus with two children, and stopped her again after she and her son landed at Dallas' Love Field. The woman says the man forced his way into her car, threatened her and the children and then drove away with her. The man told investigators that he had a previous relationship with Cadena.Q: Phrase for "help someone get out of a bad situation" I need a phrase to describe the situation of helping someone out of a bad situation, where the danger is so severe that people surrounding the person are telling the person to "calm down" and back away, and the people the situation needs to be "helped out of" are not in a position to help. Examples: I need a phrase for the scene in a movie where the character decides to help someone else who's about to be thrown out a window to escape the mob. A friend of mine was briefly mugged by a vagrant, and was in this sort of position. A friend was working on a computer that had been switched on with an infected virus. A: To some extent it depends on the situation. When someone has been in a store of extreme danger, it might be sensible to call this person a 'citizen hero' to reflect the fact that he or she is a citizen who has become a hero. Beside these 'official' title there can be many informal ones that have become used in the society. These include 'rescuer' or 'rescuer of the distressed' (used mainly in UK)
